1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

## FUND ACCOUNTING

To ensure observance of limitations and restrictions placed on the use of resources, the accounts of the Foundation are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds established according to their nature and purposes. Accordingly, all financial transactions have been recorded and reported by fund group. Separate accounts are maintained for each fund. The assets, liabilities, and fund balances are reported in following self-balancing fund groups.

GENERAL: Revenues which are not restricted as to usage and expenses for the general operations of the Foundation are classified into the general fund. The Board of Directors has determined that $10 \%$ of certain general fund revenues should be set aside for research and accordingly, approximately $\$ 11,498$ has been transferred to the research fund.

PATIENT CARE: Upon deanimation, a pre-established amount, received generally from insurance proceeds, is estimated for the long-term care of patients, placed in the patient care fund and classified as Deferred Patient Care Reserve. Such amounts are invested in fixed income and equity securities, the income of which is restricted in use to the costs of patient care and for any ultimate costs of reanimation.

RESEARCH: The portion of the proceeds received upon deanimation which is which is not designated for long-term patient care is placed in the research fund and used for the initial costs of suspension. Any excess over such costs is transferred to the general fund and is available for the operations of the Foundation. Research grants restricted to specific research activities are also placed in the research fund. Prepaid suspension fees are placed in a trust account.

ENDOWMENT: The Foundation received a bequest from a member which was, per the last will and testament, unrestricted as to usage. However, the Board of Directors restricted usage of the bequest to investments in securities and for short-term loans to the general fund for operating purposes. Income earned by endowment investments is unrestricted and, accordingly, is classified as general fund income.

BUILDING FUND: This fund is now inactive. The building fund was used for the expenses incurred on Alcor's move to Arizona.
